

# Reference Novotel, India

## Eco-friendly solar heat for hotel guests

### Background

- ▶ Target: Reduction of the fuel consumption and CO<sub>2</sub> emissions of the DHW generation in the Novotel in India
- ▶ Daily demand: 34 000 liters

### System

- ▶ Use of a large solar thermal system from Bosch, capacity of 12 000 liters

### Benefits

- ▶ Use of environmentally friendly solar energy
- ▶ Reduced fuel consumption by 55 %
- ▶ Plug-in modules (Plug & Flow) for an easy and smooth installation
